Our roadmap

❑ Framing the work

- *Levels of Intervention: A Cliff Analogy*

❑ Naming racism

- *Dual Reality: A Restaurant Saga*
- *Levels of Racism: A Gardener's Tale*

❑ Moving to action

- *Cement Dust in Our Lungs*
- *Life on a Conveyor Belt: Moving to Action*

Levels of health intervention

But how do disparities arise?

- ❑ Differences in the quality of care received within the health care system
- ❑ Differences in access to health care, including preventive and curative services
- ❑ Differences in life opportunities, exposures, and stresses that result in differences in underlying health status

Addressing the
social determinants of equity:

Why are there differences
in resources
along the cliff face?

Why are there differences
in who is found
at different parts of the cliff?

Addressing social determinants of health

*“Why do we spend so much money
on ambulances
at the bottom of the cliff?”*

*“Why are the Greenies
launching themselves
over the edge of the cliff?”*

*“This situation looks fine to me.
What’s the problem
with a three-dimensional cliff?”*

Dual Reality: A restaurant saga

I looked up and noticed a sign . . .

A stylized illustration of a brown door with a yellow doorknob and a sign that says "OPEN". The door is set against a solid orange background. The sign is white with a blue border and the word "OPEN" is written in green, bold, sans-serif capital letters with a slight drop shadow.

OPEN

CLOSED

Racism structures “Open/Closed”
signs in our society.

It is difficult
to recognize
a system of inequity
that privileges us.

Those on the outside
are very aware of the
two-sided nature
of the sign.

Is there really a two-sided sign?

Hard to know, when only see “Open”.
A privilege not to HAVE to know.
Once DO know, can choose to act.

What is racism?

A system

What is racism?

A system of structuring opportunity and assigning value

What is racism?

A system of structuring opportunity and assigning value based on the social interpretation of how one looks (which is what we call “race”)

What is racism?

A system of structuring opportunity and assigning value based on the social interpretation of how one looks (which is what we call “race”), that

- Unfairly disadvantages some individuals and communities

What is racism?

A system of structuring opportunity and assigning value based on the social interpretation of how one looks (which is what we call “race”), that

- Unfairly disadvantages some individuals and communities
- Unfairly advantages other individuals and communities
- Saps the strength of the whole society through the waste of human resources

Levels of Racism

- ❑ Institutionalized
- ❑ Personally-mediated
- ❑ Internalized

Institutionalized racism

- ❑ Differential access to the goods, services, and opportunities of society, by “race”
- ❑ Examples
 - Housing, education, employment, income
 - Medical facilities
 - Clean environment
 - Information, resources, voice
- ❑ Explains the association between social class and “race”

Personally-mediated racism

- ❑ Differential assumptions about the abilities, motives, and intents of others, by “race”
- ❑ Differential actions based on those assumptions
- ❑ Prejudice and discrimination
- ❑ Examples
 - Police brutality
 - Physician disrespect
 - Shopkeeper vigilance
 - Waiter indifference
 - Teacher devaluation

Internalized racism

- ❑ Acceptance by the stigmatized “races” of negative messages about our own abilities and intrinsic worth
- ❑ Examples
 - Self-devaluation
 - “White man’s ice is colder” syndrome
 - Resignation, helplessness, hopelessness
- ❑ Accepting limitations to our full humanity

Levels of Racism: A Gardener's Tale

Jones CP. Levels of Racism: A Theoretic Framework and a Gardener's Tale. *Am J Public Health* 2000;90(8):1212-1215.

Who is the gardener?

- Power to decide
- Power to act
- Control of resources

- **Dangerous when**
 - Allied with one group
 - Not concerned with equity

What is health equity?

- ❑ “Health equity” is assurance of the conditions for optimal health for all people
- ❑ Achieving health equity requires
 - Valuing all individuals and populations equally
 - Recognizing and rectifying historical injustices
 - Providing resources according to need
- ❑ Health disparities will be eliminated when health equity is achieved

- ❑ **Health disparities will be eliminated when health equity is achieved**

Barriers to achieving health equity

❑ Narrow focus on the individual

- Self-interest narrowly defined
- Limited sense of interdependence
- Limited sense of collective efficacy
- Systems and structures as invisible or irrelevant

❑ A-historical stance

- The present as disconnected from the past
- Current distribution of advantage/disadvantage as happenstance
- Systems and structures as givens and immutable

❑ Myth of meritocracy

- “If you work hard you will make it”
- Denial of racism
- Two babies: Equal potential or equal opportunity?

Barriers to achieving health equity

❑ Myth of zero -sum game

- “If you gain, I lose”
- Fosters competition over cooperation
- Masks the costs of inequity
- Hinders efforts to grow the pie

❑ Limited future orientation

- Disregard for the children
No “*Seven generations*” perspective
No “*How are the children?*” focus
- Usurious relationship with the planet

❑ Myth of American exceptionalism

- Disinterest in learning from others
- Sense of US entitlement

Barriers to achieving health equity

- ❑ **White supremacist ideology**
 - Hierarchy in human valuation
 - “White” as the ideal and the norm
 - Sense of “White” entitlement
 - Dehumanization of people of color
 - Fear at the “browning” of America
