nxtStudio

AI-Driven Intelligence for Government

The Challenge

Does your government organization need to quickly analyze every direction, data point, and outcome with decisions based on evidence and insight?

HOW WE HELP

nxtStudio is transforming how federal, state, and local agencies analyze policy, regulations, and program data through advanced artificial intelligence with results you can trust.

Core Capabilities

AI WRITING ASSISTANT

Generate, refine, and edit documents with AI support tailored to government writing standards and requirements

DATA ANALYSIS

Extract insights and patterns from structured and unstructured data sources with AI-powered analytics

AI-POWERED INTELLIGENCE

Results you can trust

AI CHATBOT

Interactive question-answering with persistent chat sessions, history tracking, and document-grounded responses

FORMAL LITERATURE REVIEW

Full PRISMA workflow support with AI-assisted screening and structured data extraction for evidence-based decisions

High Quality Insights, Fast

ANALYZE

Analyze policy documents and regulations rapidly

EXTRACT

Extract insights from program materials efficiently

REDUCE

Reduce manual review time significantly

IMPROVE

Improve accuracy with AI-grounded responses

Technical Architecture

Built for Government Scale with Enterprise-Ready Governance and Security

MULTIPLE AI BACKENDS

Support for Ollama (local models like Qwen, LLaMA, Gemini and OpenAI) with per-project configuration

NO PLATFORM LOCK-IN

Flexibility to switch AI providers as technology evolves and agency needs change

PROJECT MANAGEMENT

Full lifecycle tracking with owners, teams, due dates, status monitoring, and department associations

SESSION MANAGEMENT

Persistent history, Q&A tracking, archiving, and the ability to save and share conversations

ROLE-BASED ACCESS CONTROL

Granular permissions ensure users see only what they need while maintaining security

PERSONA SYSTEM

Configurable AI behavior and expertise tailored to specific use cases and domains

COMPLIANCE FRAMEWORK INTEGRATION

Associate projects with relevant frameworks and centralized admin controls for audit readiness

BALANCE REQUIREMENTS

Choose the right mix of capability, cost, and data sovereignty for each project without compromise
