Abt Global: Your IT Modernization Partner

Abt is a mission-driven consulting and digital innovation partner to U.S. federal agencies, delivering secure, scalable solutions that drive outcomes, system performance, efficiency, and mission success. We bring decades of evidence-based research, advanced analytics, and technical expertise with modern technology to help our clients make data actionable—faster, smarter, and at scale.

Why Abt

Transforming Missions Through Policy + Technology

60+ years advancing modernization across health, environment, defense, and civilian missions.

Digital Transformation at Scale

Low-code/no-code leader with \$350M+ in Pega, Appian, and Salesforce implementations.

From Vision to Deployment

We combine user research, systems architecture, and full-stack development with secure cloud delivery, ensuring projects deliver measurable mission impact.

Skilled and Certified Workforce

400+ certifications across Agile, Cloud, Data, and AI, and 500+ clients trained in Scaled Agile delivery.

Built for Impact

ISO-certified, CMMI Level 3, SAFe Government Select Partner

Proven Results

90+
systems

integrated across a single federal client's portfolio, transforming fragmented tools into a unified, secure cloud ecosystem.

\$6.8B

in annual financial aid delivered on time to **125,000+** producers through digital-first systems.

20

legacy systems modernized into a single digital platform now processing **200K+** federal loan applications annually—saving staff and citizens hundreds of thousands of labor hours.

6M+

digital 'Receipts for Service' automated on Farmers.gov, reducing administrative burden and returning **100,000 hours** to USDA's workforce.

17
navigation
applications

modernized at USACE, delivering fast, reliable data across **10M** vessel trips annually.

Digital Solutions for Federal Missions

Agile Development & DevSecOps

Flexible development approaches for faster deployment and greater adaptability.

Cloud & Low-Code Platforms

Rapid delivery of scalable solutions via platforms like ServiceNow, Appian, Pega and AWS GovCloud.

Data Science & AI/ML

Real-time analytics and predictive models to support decision-making and optimize care.

Digital Transformation

From legacy system modernization to intelligent automation and business process reengineering.

Human-Centered Design (HCD)

Designing digital tools with and for users—ensuring adoption, usability, and mission fit.

Cybersecurity & Compliance

Secure by design, aligned with FISMA, FedRAMP, CMMC, and HIPAA.

Select Contract Vehicles

GSA — OASIS +
